

# ViewSonic® ViewBoard® IFP41 Series

## INTERACTIVE DISPLAYS MADE FOR TODAY'S CLASSROOMS

### High Performance. Maximum Value.

The ViewSonic® ViewBoard® IFP41 series delivers the right mix of performance, simplicity, and value for modern classrooms. Available from 55 to 98 inches, these interactive displays feel intuitive from day one, so teachers can start teaching without complicated setup. Powered by the latest Android™ platform with EDLA certification, IFP41 interactive displays provide secure access to Google Workspace, Microsoft 365, and familiar classroom apps. With simple USB-C connectivity, clear audio, and built-in energy-saving features, the IFP41 series is easy to deploy, easy to use, and built to support learning.

### MULTITASK WITHOUT LAG OR DELAYS

An upgraded octa-core CPU and DDR5 high-bandwidth memory delivers faster load times and stable performance.

### NATIVE GOOGLE & MICROSOFT ACCESS

EDLA certification provides direct access to Google Play apps, Google Workspace, and Microsoft 365.

### SMOOTH WRITING EXPERIENCE

64-point multi-touch supports multiple users writing or drawing at the same time. Palm rejection ignores accidental touches.

### USB-C ONE-CABLE SIMPLICITY

Connect with a single USB-C cable for video, touch, audio, data, networking, and up to 100W power delivery.

### BUILT-IN EDUCATION SOFTWARE

Includes myViewBoard, AirSync, ClassSwift Lite, Manager and more at no extra cost.

### IMMERSIVE AUDIO

A 55W soundbar and subwoofer deliver clear audio to every desk. The 8-mic array captures voices for lesson recording.

### ENERGY EFFICIENT BY DESIGN

Displays wake when users approach and power down when idle with ambient light and motion sensors.
