All-In-One Direct View LED Displays

Seeing is believing with ViewSonic's innovative all-in-one Direct View LED displays. With a variety of screen sizes, these displays make a sizable impression in any corporate lobby, boardroom or conference room, boasting seamless and stunning video wall images in Full HD and 4K resolution.

- All-in-one design streamlines installation with pre-configured power supply, control, image stitching, and display systems
- Available in a variety of screen sizes with standard aspect ratios, as well as configurable options to fit your specific space and needs
- The ViewSonic® LDS Direct View LED Mobile Display is a perfect solution for conference rooms and lobbies thanks to an included flight case, mobile cart and convenient foldable screen
- All ViewSonic Direct View LED displays feature surface treatment technology with IP- and IK-rated LED modules for enhanced protection against impact, dust, and moisture – making them ideal for public spaces
- These displays deliver jaw-dropping, lifelike color and stunning images thanks to a 3,840Hz refresh rate, 600 nits brightness, and up to 10,000:1 contrast ratio

IDEAL FOR:

- Lobbies
- Large conference rooms
- Training rooms
- Boardrooms
- Ballrooms
- Multipurpose rooms
- Gyms

ViewShare™ WPD-900 Wireless Presentation System

The ViewSonic® ViewShare® WPD-900 is a plug-and-play wireless presentation system that brings peer-to-peer power to your meetings. No Wi-Fi? No problem. Just plug in and share your content instantly. It connects with AirPlay, Miracast, and all your devices without any setup or stress. It's the easiest way to start your meetings in conference rooms or any team space.

- Connect and present in seconds. No software, no drivers, and no setup required
- Peer-to-peer connection avoids network congestion and keeps data secure
- Built-in support for AirPlay and Miracast for easy screen sharing from iPhones, Android, or Windows laptops
- You can protect your research and data with AES 128-bit encryption during every session
- Works with Windows, macOS, iOS, Android, and ChromeOS devices
- Full HD wireless sharing with up to 60W USB-C power delivery for uninterrupted sessions

IDEAL FOR:

- **Conference rooms**
- **Training rooms**

ViewSonic Software

ViewSonic® software is your visual collaboration platform. Purpose-built to connect, engage and inspire through a comprehensive suite of apps, it empowers professionals like you to work, collaborate and present in your own way.

TeamOne: An intuitive and robust software suite that delivers an infinite digital whiteboarding canvas for secure, scalable, real-time collaboration and productivity for any team, anywhere.

Manager: Optimize your digital signage network with a cloud-based solution built to support your existing CMS. With ViewSonic Manager, IT administrators can streamline the deployment of third-party CMS apps (APKs) across all enterprise displays from one central dashboard. Seamlessly monitor, manage, and remotely troubleshoot devices to ensure your third-party software is always running flawlessly.

AirSync™: This wireless casting software allows you to wirelessly mirror your screen from any device to a larger display using our secure app or your web browser. AirSync also supports built-in casting like Miracast, Airplay, and Google Cast, making it easy to share content quickly and securely.

vDisplay Manager: An intuitive desktop software available for select ViewSonic monitors. Beyond seamlessly integrating On-Screen Display (OSD) controls and basic settings, this powerful tool delivers features such as Screen Split, Auto Launch, and Smart Backlight, which allow you to customize screen layouts and settings in order to maximize comfort and efficiency.

Digital Kiosks and ePosters

Perfect for up-close messaging, ViewSonic all-in-one digital kiosks feature eye-catching images within sleek and slim designs. Great for greeting visitors in busy, high-traffic areas, these kiosks feature a scratch-resistant tempered glass faceplate for added durability.

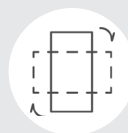

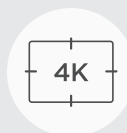

- Our sleek, free-standing ePoster kiosks make it easy to replace old-fashioned backlit printed signs and are also great for wayfinding applications
- Options available for touchscreen and non-touchscreen solutions
- Powerful all-in-one SoC with built-in multi-core media player with 16GB storage for photo and video playback
- A convenient media player cradle can accommodate a mini-PC or an additional mounted media player, while a lockable door keeps things secure and out of sight

IDEAL FOR:

• Lobbies

• Walkways

• Hallways

Available models:

- EP1052T-L
- EP1052T-A
- EP1052T-H
- EP5542
- EP5542T

Touch Displays

Our touch displays are designed to seamlessly integrate into your workflow. With a compact form factor and clean design for easy integration, ViewSonic touch displays are well-suited for point-of-sale, point-of-information, signage, and hospitality applications.

- Versatile touch technologies with glove compatibility on select models
- Durable scratch-resistant screens
- VESA-compatible mounts
- Ergonomic designs with flexible tilt and dual-hinge functionality
- Versatile connectivity options
